

Slatgrid Hangrail Wall Assembly Instructions

Step 1: With 3 connectors, connect 2 panels at a 90-degree angle to create one half of wall. Repeat to create other end of first half.

Step 2: Using end panel of first half of wall to start next 90-degree pair, create 2 more pairs to complete wall panels.

Outfit with gridwall or slatwall accessories to create your ideal display wall.

Please note: These slatgrid displays are intended for display and merchandising items such as clothing and giftware. If using with heavyweight items or outdoor displaying where weather can be a factor, additional bracing or anchoring may be needed. Please consult your Palay Display representative for more information.
